

- Appreciate the content that is laid out!
- The incorporation of the quote seems like a great addition
- I wish more colors like Frank Ocean's orange or green is used for his albums
- Maybe there could be a page of his albums listed?
- Footer should be added!
- I would like to see section titles like "history," "music," "art" and stuff
- I would like all the content to be aligned and have same margins and borders!
- Navigation bar could be a plus too
